courier aramex, to your door within 24 hours - 48 hours, depending on location and aramex terms and conditions.

how much EcoZap™ do i need?

although circumstances differ, a rule of thumb would be about the following:

- 1 bedroom house or apartment = 200gm
- 2 bedroom house or apartment = 400gm
- 3 bedroom house or apartment = 800gm
- 4 bedroom house or apartment = 1kg

you could also consider buying multiple 1kg bags as bulk costs less.

restaurants, lodges, guest houses and apartment blocks have been treated successfully and may approach us for quotes

kindly take note that sporadic and unpredictable post office strikes have forced me into using couriers where possible. at present i use aramex couriers as they are reliable and deliver to main centres in south africa within 24 to 48 hours weekdays

yours in Jesus Christ
